

# Multi-talent for folding, gluing, dispensing

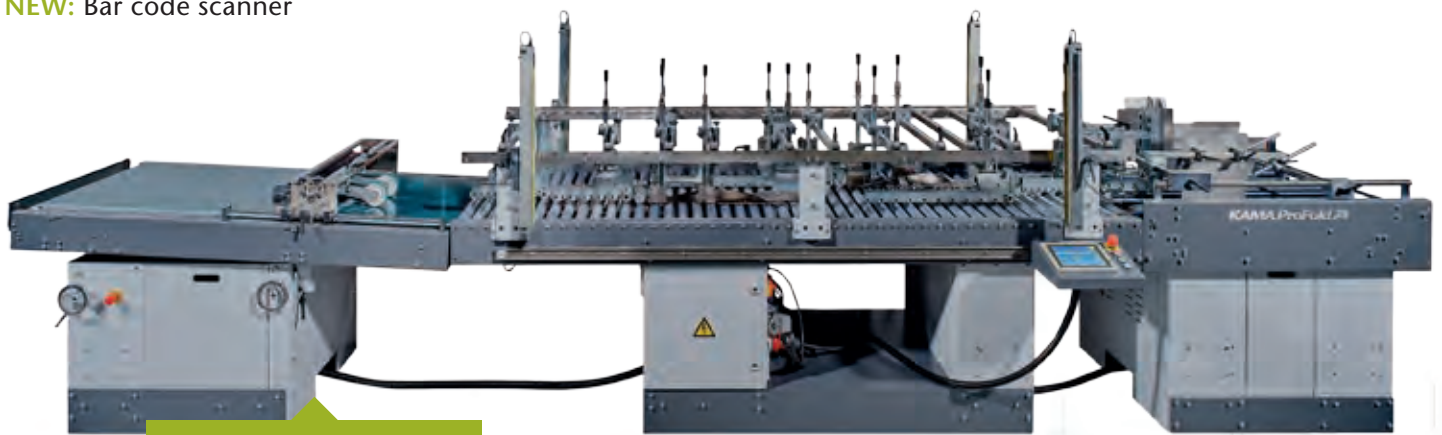

## Wide range of applications

- > Folding
- > Gluing
- > Dispensing of flat products, cards, package inserts
- > Dispensing of adhesive tape with or without pull strip
- > Pick & place of voluminous product samples
- > **NEW:** Folding carton gluing also with pre-breaking, straight-line and auto-lock-bottom boxes
- > Gluing capacity folders
- > Inline creasing and perforating
- > **NEW:** Bar code scanner

## Highlights

- > Modular machine concept for versatile applications and products
- > JobPlanner software for easy, reproducible setup on the patented tool grid system and for order calculation
- > suction-belt feeder
- > **NEW:** motor-driven alignment table (right and left, KAMA patent)
- > Sliding control panel
- > Accessories for further applications (see below)

Digital setup plan for easy make-ready

## KAMA ProFold 74 Folder-Gluer

### Technical data

Paper, paperboard, plastics	100 – 600 g/m <sup>2</sup> (6 - 25 pts)
Maximum blank width	740 mm (29 in )
Minimum blank size (L x W) (* smaller on request)	120 x 80 mm* (4 x 3 1/16 in*)
Maximum linear speed	150 m/min
Dimensions (standard length)	5,700x1,000 mm (225 x 39 1/2 in)

### Further accessories (selection)

Hot melt gluing system	Standard
JobPlanner software	Standard
Programmable rotation device (1°–360°)	Option
Rotation device (90°)	Option
Tipper fold plate	Standard
Upper and lower pocket folding device	Option
Cold glue application system	Option
Flat stack feeder	Option
Second transport module	Option
Various dispensing devices	Option
